ATLASGAMES.IO

WELCOME TO ATLAS GAMES!

Atlas Games, launched by a skilled and independent group in 2022 with early formation during the COVID-19 pandemic, is crafting the ATLASGAMES Web3 platform. We aim to establish a welcoming ecosystem centered around social gaming networks and play-to-earn esports. To achieve this, we've incorporated an ARCADE LIBRARY into our play-to-earn ecosystem, attracting arcade enthusiasts to our community. Additionally, we've introduced an NFT marketplace for gamers to exchange their NFT achievements, unveiling a hidden pathway for earnings within ATLASGAMES. In the ATLAS GAMES P2E ecosystem, gamers will earn our native token BLADES (BOC) based on their activities and achievements and can trade it as an asset within ATLAS GAMES and withdraw to exchanges soon.

ATLASGAMES.IO

WHY ATLAS GAMES ?

- 1-What problem ATLAS GAMES solve?
- 2-Why do I have to invest in ATLAS GAMES?
- 3-Why do I have to use the ATLAS GAMES platform?

1-ATLAS GAMES is dedicated to building the best infrastructure for a truly dynamic esports community using blockchain tools.

We use different tools of blockchain technology such as NFTs and "play to earn," as well as newly developed admin-to-earn features, to create the best operating system for players and crypto enthusiasts to spend their time and earn BLADES as their reward.

2-We develop multiple play-to-earn video games to cover and engage most people involved in the cryptocurrency world. Most of the total allocation of money in transactions for GameFi projects is allocated to normal play-to-earn projects, and esports have already lost the competition.

We have two extra factors that will give us a cutting edge compared to other competitors. We plan to attract 2% of the Esports players from normal esports websites like Challenger Mode or Faceit.

3-By adding each new video game to our library, we welcome a whole new community of gamers and users to our platform, which will increase our market value.

We have created everything that three different projects offer in one package: a user-friendly esports platform, a play-to-earn video game with many more to come, and an NFT marketplace that is connected to all we have to offer

ATLASGAMES.IO

OPPORTUNITIES

Creating "ATLAS GAMES" as a play-to-earn social gaming network aligns perfectly with the evolving gaming industry landscape. It combines esports tournaments, arcade games, and cryptocurrency rewards to tap into the sector's economic potential and social connectivity trends. This platform would allow players to organize tournaments, compete, interact, and earn simultaneously, addressing the growing demand for more engaging and rewarding gaming experiences. The multi-earn system and focus on skill development could attract a wide range of players, from casual gamers to aspiring esports professionals. ATLAS GAMES thus represents a timely fusion of entertainment, social networking, and financial opportunity in the digital age.

ATLASGAMES.IO

BLADES STORY

The token is taken from Blades of Chaos (BOC), the legendary chained blades that were Kratos's weapons in God of War which is based on the BEP20 channel, a token standard on Binance Smart Chain that extends ERC-20, the most common Ethereum token standard.

The good news is that you will be connected to a new style of "play to earn" which has solved the problems on blockchain (a system of recording information in a way that makes it difficult or impossible to change, hack, or cheat the system) channels, private layers of communication. You do not need to play second-rate or third-rate games which are extremely low in quality or value and not very interesting for players.

ATLASGAMES.IO

ATLAS GAMES ESPORTS

ATLAS GAMES Esports is an attractive platform that enables gamers to compete individually or as a team, with the opportunity to earn guaranteed rewards. The platform offers a personalized experience with regular updates, currently hosting daily events and weekly popular mobile games like PUBG Mobile, and COD Mobile.

The game library is constantly expanded to include titles such as FC EFootball, Dota2, League of Legends, and Brawlhalla And we plan to increase our library over time. In this way, each season we will attract a whole new community to our project. With these updates, we guarantee an increase in our Atlas Games shares over time.

ATLAS GAMES Esports provides a competitive environment for gamers to showcase their skills and earn rewards through tournaments and events.

By combining competitive gaming with earning opportunities, Atlas Games Esports offers a unique platform for gamers to pursue their passion while potentially generating income from their skills and dedication.

ATLASGAMES.IO

THE RISE OF ESPORTS: A GLOBAL PHENOMENON

Esports has experienced remarkable growth in recent years, attracting a vast and ever-expanding audience. Key facts:

- In 2022, the global esports audience reached an estimated 532 million people
- The 2021 League of Legends World Championship drew a peak viewership of over 73 million concurrent viewers, setting a new record for the esports event
- The 2022 International Dota 2 Championship had a prize pool of over \$18 million, showcasing the lucrative nature of top-tier esports tournaments .

These statistics highlight the remarkable ascent of esports, which has evolved from a niche hobby into a global phenomenon commanding the attention of hundreds of millions of fans worldwide. As the industry continues to grow and attract significant investments, esports is poised to rival traditional sports in terms of viewership, revenue, and cultural impact.

ATLASGAMES.IO

REVOLUTIONIZING ESPORTS WITH PLAY-TO-EARN TOURNAMENTS

Atlas Games has positioned itself at the forefront of the esports industry by offering a unique platform that combines competitive gaming with earning opportunities. Key features of Atlas Games' esports offerings:

- ATLAS GAMES Esports Platform: Enables gamers to compete individually or as a team, earning guaranteed rewards
- Regular Updates and Events: Hosts daily tournaments for popular mobile games, consoles, and PCs like PUBG Mobile, CS2, and Clash Royale
- Expanding Game Library: Includes titles such as FIFA, Dota2, League of Legends, and Brawlhalla

By blending competitive gaming with earning potential, Atlas Games provides a compelling platform for gamers to showcase their skills while generating income.

ATLASGAMES.IO

DATA-DRIVEN AUDIENCE EXPERIENCES IN ESPORTS

The esports industry is rich in data, offering vast opportunities for research and commercial applications. Recent developments in esports analytics include:

- **Interactive Dashboards:** Provide viewers with access to live in-game statistics and the ability to compare different players
- **Novel Derived Metrics:** Translate raw data points into new metrics that are easier for audiences to interpret
- **Analytical Features:** Add novel metrics and visualizations to enhance the viewing experience

These data-driven audience experiences have the potential to revolutionize how esports fans engage with and understand the games they love.

MAIN POINT

By adding diverse video games to our library, we attract entirely new communities to our project. These updates will help guarantee an increase in the value of our shares over time.

ATLASGAMES.IO

ESPORTS TOURNAMENT MANAGEMENT PLATFORM

Our platform offers comprehensive tools for managing esports tournaments efficiently.

ORGANIZER FEATURES

The platform provides organizers with:

- **Tournament Creation:** Set up competitions with customizable prize structures.
- **Access Control:** Manage participant entry and permissions.
- **Bracket Management:** Organize and display tournament progress.
- **Collaboration Tools:** Invite co-organizers to assist with event management.

ATLASGAMES.IO

BACK

PARTICIPANT EXPERIENCE

Competitors can enjoy:

- Tournament Discovery: Find and join public competitions.
- Team Formation: Create or join teams for group events.
- Communication: Engage with other participants through chat features.
- Reward System: Receive prizes through integrated distribution methods.

We have established specific rules for both organizers and players to implement various earning methods through organizing tournaments, ensuring a fair play environment.

ATLASGAMES.IO

ADMIN-TO-EARN: UNLOCKING NEW POTENTIAL IN GAMING

Atlas Games introduces Admin-to-Earn, revolutionizing player engagement

Features:

1. Tournament administration roles
2. Crypto rewards for management tasks
3. Streaming rights for admins
4. Community-driven ecosystem

Benefits:

1. Multiple earnings pathways
2. Skill development in event management
3. Personal brand growth through streaming
4. Increased community involvement
5. Enhanced tournament quality and fairness

Admin-to-Earn transforms players into stakeholders, creating a more vibrant and rewarding gaming experience for all.

Complete rules and regulations will ensure the safety of all platform users and organizers, creating a win-win situation for everyone.

ATLASGAMES.IO

ATLAS GAMES EXPANDS INTO ARCADE-STYLE PLAY-TO-EARN GAMING

Atlas Games is broadening its offerings by partnering with our developers to release a series of arcade-style Play-to-Earn games. This initiative combines the appeal of classic arcade gaming with modern blockchain-based earning mechanisms.

Key features of Atlas Games' arcade gaming platform:

- Scalable platform with continuous game upgrades, new earning opportunities, and regular updates
- Weekly and monthly gaming events to foster community involvement
- Plans to launch its first Single-Player-Studio game in upcoming stages

By focusing on arcade-style gaming within a Play-to-Earn framework, Atlas Games aims to capitalize on the rising interest in blockchain-based gaming and the enduring popularity of arcade entertainment. This strategy positions the company to establish a strong presence in the competitive digital gaming market, offering players an evolving and engaging gaming experience.

Atlas Defense is the first of many p2e games to be launched with the project itself, you can enjoy its addictive attributed along with mining our native token and API connecting to our main platform.

ATLASGAMES.IO

ATLAS DEFENSE: LEADING THE CHARGE IN PLAY-TO-EARN GAMING

Atlas Defense marks the debut of Atlas Games Company into the play-to-earn arena, offering a fresh take on the classic tower defense genre. This game combines strategic depth with blockchain technology, providing players with both engaging gameplay and real earning opportunities.

ATLAS DEFENSE OVERVIEW

Tower upgrades:

Players can enhance their heroes' abilities through a robust upgrade system, making them more formidable in battle. Additionally, the game supports team formation, allowing players to collaborate and devise strategies to tackle increasingly difficult challenges.

Earning and Rewards

Diverse Earning Opportunities:

Atlas Defense offers 50 different blade-earning mechanisms, with plans for continuous updates. Players can earn blades by participating in various in-game activities and events.

Competitive Rankings:

The game features comprehensive ranking systems, including weekly, monthly, and seasonal leaderboards. Top performers are rewarded with additional blades, incentivizing competitive play.

Endless Mode Events:

Daily and weekly endless events provide unlimited participation opportunities. Players can choose their arsenal and compete for a share of the prize pool, which is distributed among the top participants.

CONTINUOUS EVOLUTION

Regular Updates:

Atlas Defense is continuously updated to ensure a dynamic and engaging player experience. The development team is committed to refining and expanding the game based on player feedback and emerging trends.

Future Projects:

Following the completion of Atlas Defense, Atlas Games Company plans to launch a multiplayer Battle Royale game, further expanding its play-to-earn portfolio.
Innovation and Inspiration

ADDING 2 VIDEO-GAMES: EXPANDING ATLAS GAMES' PORTFOLIO

Atlas Games' commitment to gaming innovation shines as they introduce two new Play-to-Earn (P2E) games. The team's collaboration with gaming studios ensures diversity in game genres and player preferences. Their upcoming Metaverse platform, ATLAS META, adds another layer of anticipation to the gaming community.

ATLASGAMES.IO

ATLAS GAMES MARKET

The ATLAS GAMES Market is an innovative community-driven platform merging e-commerce, blockchain, and gaming elements. Users can trade goods, services, and NFTs using native tokens. Key features include:

- Discounts for game winners and shareholders
- Investment packages for artists and esports backers
- Staking rewards for token holders

This ecosystem encourages user engagement by allowing community members to leverage platform tokens for various transactions and earn rewards through active participation. The ATLAS GAMES Market aims to create a comprehensive, engaging environment where users can shop, invest, and benefit from their involvement in the platform's activities.

Market

ATLASGAMES.IO

THE RISE OF NFTS: ATLAS GAMES NFT MARKETPLACE

The NFT market is surging, projected to reach \$231 billion by 2030, with gaming NFTs accounting for nearly half of all sales. This digital revolution is expanding beyond art and collectibles into areas like music rights and real estate. In this dynamic landscape, Atlas Games is carving out its niche with a marketplace that blends gaming, art, and earning potential.

Empowering Creators and Gamers

The ATLAS GAMES NFT Marketplace empowers video game artists to convert their digital creations into NFTs, showcasing their work to gamers and enabling them to sell their NFTs and earn money. Atlas Games supports the platform by offering curated NFT albums that players can access for free, with the chance to win real money rewards. This creates a mutually beneficial ecosystem, where digital artists can monetize their talents while gamers can discover valuable assets and earn rewards.

Unlocking New Opportunities in the Digital Landscape

By bridging digital art, gaming, and decentralized finance, the ATLAS GAMES NFT Marketplace represents an innovative approach to unlocking new opportunities for creators and players to thrive in the evolving digital landscape. As the line between virtual and real-world value blurs, Atlas Games is at the forefront, creating an ecosystem where digital skills and assets can have tangible impacts.

ATLASGAMES.IO

ATLAS GAMES NFTS

The ATLAS GAMES NFT Marketplace is an innovative platform that connects video game artists, gamers, and digital assets. Key features include:

- Artists can convert digital creations into NFTs
- Global showcase for gaming-related artwork
- Monetization opportunities for digital artists
- ATLAS GAMES offers curated NFT albums
- Players can access NFTs for free and earn rewards

This ecosystem fosters a symbiotic relationship between artists and gamers, allowing creators to monetize their talents while providing players with valuable assets and earning potential. The ATLAS GAMES NFT Marketplace creates new opportunities in the evolving digital landscape by integrating digital art, gaming, and decentralized finance.

The most important aspect of our NFT marketplace is the utilization of NFTs. You will earn tokens for completing your seasonal albums, and you can create new opportunities to unlock high-stakes tournaments and rewards.

The main issue affecting NFT transactions is the lack of usefulness for each offering. Our ATLAS GAMES NFT Album addresses this by allowing players in esports and arcades to earn four different types of NFTs. As players participate, they can complete their albums and receive extra rewards for reaching certain milestones. Additionally, these NFTs can be earned for free, giving them real value in our marketplace and boosting players' earning potential.

ATLASGAMES.IO

WHAT CAN BE YOUR SHARE OF THE EARNINGS

The esports industry is experiencing rapid growth, with global revenues projected to reach \$4.3 billion by 2024 and a 7.10% annual growth rate expected from 2024 to 2028. Viewership is also rising, as evidenced by top events like the Free Fire World Series 2021 Singapore reaching 5.4 million peak viewers. The integration of cryptocurrencies and blockchain into gaming, known as GameFi, has gained significant traction with a current market cap of \$21.4 billion. With the esports audience reaching 495 million viewers in 2020 and continuing to expand, the industry is evolving through new revenue streams and increased audience engagement.

Atlas Games has plans to leverage the growth of GameFi and capture a share of the esports market. Atlas Games aims to attract 2% of the user base from major esports platforms like ESL, FACEIT, and Challenger Mode by integrating blockchain technology and cryptocurrencies into its gaming ecosystem. This strategy could allow Atlas Games to capitalize on the increasing convergence of esports and blockchain-based gaming.

ATLASGAMES.IO

PLAY AND EARN GOOD MONEY

Digital Playgrounds, Real Profits: The P2E Gaming Revolution

Play-to-earn (P2E) gaming has emerged as a groundbreaking fusion of blockchain technology and interactive entertainment. These games enable players to acquire valuable digital assets, including cryptocurrencies and NFTs, through skilled gameplay. By redefining virtual ownership and creating new economic models, P2E games are transforming gaming from a leisure activity into a potential source of income. This innovative approach has gained traction globally, particularly in developing economies, where it offers alternative revenue streams. As the P2E market expands, with projections reaching \$65.7 billion by 2027, it's poised to reshape the gaming industry and the broader landscape of digital finance and asset ownership.

INCREASING VALUE FOR SHAREHOLDERS NAVIGATING SUCCESS TOGETHER

To ensure shareholder value, Atlas Games carefully considers various factors. From token circulation strategies to an adaptable project evaluation process, their focus is on sustaining growth and alignment with users' evolving needs. This approach secures the economic structure for current and future shareholders.

ATLASGAMES.IO

RISK MANAGEMENT

Games project mitigates investment risks for users by leveraging our experience with large-scale play-to-earn projects, such as Gala Games, and designing our token to be inflationary which helps us to avoid arbitrary burning or creation.

Our esports platform reduces risk by ensuring tournament prizes are not funded by entry fees. Competitions will be sponsored, allowing us to secure contracts with various esports sponsors for more tournaments.

We will maintain a higher inflow of funds than outflows, increasing the value of our native token as our user base and trading volume grow. The Atlas Games team will periodically add new games to our esports library to expand our reach.

For example, adding Mario Kart will connect us with a new community that may not typically engage with cryptocurrency. We also created a "admin-to-earn," offering diverse revenue opportunities for streamers, channels, teams, and clans.

Our goal is to attract esports players from traditional platforms like ESL or FACEIT by providing added value and incentivizing participation in tournaments with Blades-based prizes. Additionally, we will introduce multiplayer and single-player games developed by the Atlas Games team in a play-to-earn format to further grow our user base.

Our token distribution strategy and exchange listings will enhance visibility and value. Through these initiatives, we aim to ensure the sustainability and growth of the Atlas Games project while delivering value to our users and stakeholders.

ATLASGAMES.IO

ATLAS ID: YOUR ALL-ACCESS PASS TO ATLAS GAMES

Atlas ID is your one-stop solution for accessing everything Atlas Games offers. Think of it as a master key that unlocks all the doors in our gaming world. Here's what makes Atlas ID special:

One Account, Many Games:

Sign up once, and you're in! Use the same login for all Atlas Games, saving you time and hassle. **Your Wallet, Everywhere:** Whether you're earning gold, gems, or blades (our special blockchain tokens), Atlas ID keeps track of it all. It's like having a universal wallet for all your in-game earnings.

Easy Currency Swaps:

Want to turn your gold into blades? No problem. Atlas ID makes switching between different game currencies a breeze.

Always in Sync: Thanks to our smart technology, your progress and earnings update instantly across all games. Play on your phone, switch to your computer – your stuff follows you everywhere.

Safe and Sound:

We've built Atlas ID with top-notch security to keep your account and earnings safe.

Ready for the Future:

As we add more games and features, your Atlas ID will be ready for them. It grows as we grow!

In simple terms, Atlas ID is designed to make your gaming experience smooth, connected, and hassle-free across all Atlas Games. It's your passport to our expanding gaming universe!

ATLASGAMES.IO

Atlas games

UNIQUE ATLAS GAMES APPROACH TO ENTER A NEW WORLD

Atlas Games has developed a distinctive approach to entering the play-to-earn gaming market, setting it apart from traditional models:

ASSET OWNERSHIP

Unlike most play-to-earn games where players need to purchase in-game assets to earn cryptocurrency, Atlas Games allows players to use their "blades" (the platform's native tokens) without the need to buy developer-designed assets. Players can transfer their blades to their wallets at any time. In other video game projects, players lose their assets if they stop playing, but on the Atlas Games platform, players can trade their assets with other users.

MULTIPLE EARNING OPPORTUNITIES

Atlas Games has designed various formulas for earning tokens to cater to different types of gamers. All gamers, including professionals and casual players, have equal opportunities to earn money. The platform offers packages for purchasing, referral marketing, and staking to incentivize gamers and encourage them to be part of the Atlas Games community. The platform hosts events, sponsors festivals, and provides daily income for participants.

ATLASGAMES.IO

Atlas Games community. The platform hosts events, sponsors festivals, and provides daily income for participants.

1. Referral Points for Registers: Players can earn points by referring new users who register on the platform, incentivizing community growth.
2. First Attending in Any Tournaments: New players can earn rewards simply by participating in their first tournament, encouraging engagement from the outset.
3. Top Five Ranking in Week/Month/Season: Consistent high performance can lead to significant rewards, as players who rank in the top five during specified periods receive bonuses.
4. Complete Account: Players can maximize their earnings by fully completing their account setup, and unlocking additional earning potentials.
5. Attending Four Tournaments in a Week: Regular participation is rewarded; attending four tournaments within a week can yield extra benefits.

ATLASGAMES.IO

6. NFTs Collection through Main Events: Players can collect unique NFTs during major events, which can be appreciated and be traded or sold.
7. Daily visits to the website: Daily engagement is rewarded; players who visit the website for seven consecutive days can earn special bonuses.
8. Become a Tournaments Organizer (Admin-To-Earn): Players can take on administrative roles to organize tournaments, providing them with additional earning avenues.
9. Earn EXP/Gem through Arcade Games and Swap to BLADES: Players can earn experience points and gems by participating in arcade games, which can be exchanged for BLADES, enhancing their in-game capabilities.

These strategies ensure that every player, regardless of their skill level, has the opportunity to earn rewards and engage with the Atlas Games community effectively. Also, we plan to add a new way of earning on a weekly basis.

ATLASGAMES.IO

STREAMERS

Streamers, who are content creators and social media influencers playing video games and live-streaming their gameplay, play a significant role in Atlas Games' revenue generation plans. The platform recognizes the importance of streamers in the video game industry and aims to capitalize on their influence.

By offering unique asset ownership, diverse earning opportunities, and a focus on streamers, Atlas Games sets itself apart from traditional play-to-earn gaming models, positioning itself as an attractive and innovative platform in the rapidly evolving gaming landscape.

ATLASGAMES.IO

A LOOK TO THE NEAR FUTURE

TREE OF LIFE: NURTURING CONTINUOUS EARNING PATHS

The Earning Tree emerges as a unique platform aspect, guiding users toward a rewarding journey by engaging in endless quests. Imagine the personal growth and digital wealth creation reminiscent of epic games like God of War and Final Fantasy.

DUAL INVESTMENT: UNLOCKING PASSIVE INCOME OPPORTUNITIES

Passive income takes center stage in this section. Users can lock the Blades they accumulate daily and earn consistent profits. The addition of a "Wheel of Fortune" brings an element of excitement, offering valuable rewards accessible without any initial investment.

ATLAS POOL: FORECASTING ON TOURNAMENT OUTCOMES

Introducing Atlas Pool, a dynamic feature allowing users to place bets on tournament predictions. This fosters user engagement, adds thrill to competitions, and supports fundraising for tournament prizes. Correct predictions grant users a share of the prize pool, incentivizing participation.

ATLASGAMES.IO

SOCIAL EARNING: ADDING VALUE TO USER INTERACTIONS

The Atlas Games project takes a fresh approach by allowing users to earn Blades, the platform's cryptocurrency, even through simple actions like posting comments or creating content. This innovative concept extends to organizers and streamers, where audience engagement translates into mutual value creation.

BUILDING CONNECTIONS AND ENGAGEMENT

The Atlas Games project takes a fresh approach by allowing users to earn Blades, the platform's cryptocurrency, even through simple actions like posting comments or creating content. This innovative concept extends to organizers and streamers, where audience engagement translates into mutual value creation.

INTEGRATION BETWEEN WEB PLATFORM AND BLOCKCHAIN

THE POWER OF SMART CONTRACTS

Embracing blockchain technology, Atlas Games optimizes website processes through smart contracts. This offers enhanced security, transparent transactions, and automated functions. From security and low gas fees to privacy and user information, the integration brings innovation to the forefront.

ATLASGAMES.IO

BOC TOKENOMICS: STRATEGIC DISTRIBUTION AND ALLOCATION SCARCITY MEETS GROWTH

- Total supply: 21 million BOC tokens (hard cap)
- Initial release: 20% (4.2 million tokens) at CEX listing
- Long-term distribution: 80% (16.8 million tokens) over 5 years
- Release schedule: 20% every 6 months post-initial listing

STRATEGIC INITIAL ALLOCATION FUELING THE ECOSYSTEM

- 20% (4.2 million tokens) for initial crowdfunding, including:
 1. Contributor and early investor incentives
 2. Core team allocation (vesting)
 3. Treasury management fund
 4. Validator bootstrap mechanism
 5. Ecosystem development initiatives
 6. promotions
- Remaining 80% reserved for long-term development, community incentives, and future funding rounds

ATLASGAMES.IO

ATLAS GAMES VESTING PROGRAM

The vesting program for Atlas Games is structured to align the interests of all stakeholders—founders, employees, advisors, and investors—promoting long-term commitment and market stability.

VESTING SCHEDULE FOR THE CORE TEAM AND FOUNDERS

The core team and founders will undergo a vesting schedule of one year after each launch, spanning a total period of six years. This structure ensures long-term commitment and alignment with the project's success.

TOKEN DISTRIBUTION

ATLAS GAMES ROADMAP

PHASE 1 (Q4 - 2023)

- Developing the website and designing sections
- Preparing a business plan and esports platform project roadmap
- Requesting official research and development department confirmation of the feasibility of the project
- Business model validation

PHASE 2 (Q2 - 2024)

- Developing Smart Contract
- Complete project evaluation
- Expand Earning systems
- Testing the platform by holding more than 250 competitions along with winning prizes Building teams in Battle Royale Developing user profiles
- Holding single and double-elimination Tournaments

PHASE 3 (Q3 - 2024)

- Applying for company registration
- Lanching BLADES Token
- Lanching ATLAS DEFENSE Beta
- Developing the first NFT album
- Developing second ARCADE videogame: BACKGAMMON

PHASE 4 (Q4 - 2024)

- 3 stages of Airdrops
- Expanding Game libraries
- Developing our Team
- ATLAS DEFENSE Main launch
- Sponsorship campaign for gaming events
- BOC token test-net and integration with BLADES

PHASE 5 (Q1 - 2025)

- Launching on CEX (a trusted and secure Bitcoin and Crypto exchange)
- Working in partnership with game developers and studios
- Expanding ARCADE GAMES libraries
- Developing applications
- Holding tournaments for new Esports games
- ATLAS Tournaments POOL
- Social Earning
- Launching a new version of the website
- Launching ATLAS GAMES application

ATLASGAMES.IO

ATLAS GAMES CREATOR

Inflections are pivotal moments in life where events and decisions redirect your path, influencing various aspects such as education, career, or relationships. For me, "Persona 5" was a significant inflection point in my 30 years of gaming experience. Upon completing the game, I felt inspired to embark on the journey of creating ATLAS GAMES.

ABOUT OUR TEAM

Atlas Games is built by a diverse, international team of talented professionals, including programmers, blockchain experts, project managers, designers, and especially our gamers. Our experts continuously update their skills, welcoming specialists worldwide to overcome challenges and achieve our goals.

By 2025, we aim to upgrade our development programs, increase investments, and boost stock value. Our grand plan includes entering the Metaverse, offering valuable experiences to attract dedicated gamers.
